## **SECTION 2: Hazards identification**

## **2.1** *Classification of the substance or mixture* The product does not meet the criteria for a classification as hazardous in accordance with the current version of Regulation (EC) No 1272/2008.

Label elements	
Hazard pictogram(s):	No pictogram
Signal word(s):	No signal word
Product identifier:	Not required
Hazard statements:	Not required
Precautionary statements:	Not required
Supplemental hazard information:	Not required
Remark:	

The product is an article. There is no requirement for the product to be specially labelled according to Regulation (EC) No 1272/2008 or the corresponding national laws.

#### 2.3 Other hazards

2.2

According to the German TRGS 905 wood dust is classified as carcinogenic Category 2 (Carc. 2: suspected human carcinogen).

Avoid absolutely formation of dust during processing and treatment. In case of release of wood dust, generation of flammable or explosive mixtures of wood dust or wood chips with atmospheric oxygen is possible. This article does not contain any substances classified as PBT/vPvB in a concentration of 0.1% or more.

Trade name:	GUTEX <sup>®</sup> Multiplex-top	
Company/Undertaking:	g: GUTEX <sup>®</sup> Holzfaserplattenwerk H. Henselmann GmbH + Co KG	
	Gutenburg 5, D-79761 Waldshut-Tiengen	Revision date: 30.04.2019
	Telephone: +49-7741-6099-0	
Product number:	gute0024	

## **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

	REACH registration number:
	The ingredients do not require registration according to Regulation (EC) No 1207/2006 [REACH] or the registration
	is scheduled at a later date.
3.2.1	Characterisation
	The product is an article in accordance with Article 2 of Regulation (EC) No 1272/2008.
	It is a wood fiber board in accordance with industrial standards EN 13171. It is hydrophobed on the basis of paraffin
	and polyurethane resin as binding agent.
3.2.2	Substances presenting a health/environmental hazard within the meaning of Regulation (EC) No 1272/2008
	This article does not contain dangerous substances or mixtures intended to be released under normal or reasonably
	foreseeable conditions of use.
3.2.3	Substances for which Union workplace exposure limits have been assigned and which are not already included
	under point 3.2.2 (see also Section 8.)
	No substances.

**3.2.4** *Additional information* None.

#### **SECTION 4: First aid measures**

- 4.1 Description of first aid measures
- 4.1.1 General information
- None.4.1.2 *In case of inhalation* If liberated dust is inhaled, ensure supply of fresh air. In the event of symptoms take medical treatment.
- **4.1.3** In case of contact with skin No special measures necessary.
- 4.1.4 In case of contact with eyes In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart. In the event of symptoms consult an ophthalmologist. Remove contact lenses, if present and easy to do. Do not rub eyes, cornea damage is possible by mechanical stress.
  4.1.5 In case of ingestion Not relevant.
  4.2 Most important symptoms and effects, both acute and delayed
- No symptoms and effects known.
  4.3 *Indication of any immediate medical attention and special treatment needed* None.

#### **SECTION 5: Firefighting measures**

- 5.1 Extinguishing media
- 5.1.1 Suitable extinguishing media
- Water spray jet.
- **5.1.2** Unsuitable extinguishing media None.
- 5.2 Special hazards arising from the substance or mixture Risk of formation of toxic pyrolysis products.
  5.3 Advice for firefighters
- In enclosed areas use self-contained breathing apparatus. Classification of fire reaction rating as per EN 13501-1: European Class E (flammable).

Trade name:	GUTEX <sup>®</sup> Multiplex-top		
Company/Undertaking:	GUTEX® Holzfaserplattenwerk H. Henselmann GmbH + Co KG		
	Gutenburg 5, D-79761 Waldshut-Tiengen	Revision date: 30.04.2019	
	Telephone: +49-7741-6099-0		
Product number:	gute0024		

## **SECTION 6: Accidental release measures**

- 6.1 Personal precautions, protective equipment and emergency procedures
- 6.1.1 For non-emergency personnel No special measures necessary if used correctly.
  6.1.2 For emergency responders No special measures necessary if used correctly.
  6.2 Environmental precautions No special measures necessary if used correctly.
  6.3 Methods and material for containment and cleaning up Pick up broken pieces mechanically.
- **6.4** *Reference to other sections* For personal protective equipment see also Section 8. For disposal considerations see also Section 13.

### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

7.1.1 Advice on safe handling No special measures necessary if used correctly. The product is combustible. Avoid release of dust and dust deposits during processing and treatment. In the case of formation of dust ensure local exhaust ventilation. Dust deposits that cannot be avoided must be taken up regularly. Use approved industrial vacuum cleaner (class M) for removal. In case of release of wood dust, comply with the protective measures in accordance with TRGS 553<sup>1</sup>. In designing the work process the model solutions of the Control Guidance Sheets 100<sup>1</sup>, 110<sup>1</sup>, 200<sup>1</sup> and 240<sup>1</sup> must be taken into consideration. 7.1.2 Advice on general occupational hygiene Do not inhale dust. 7.2 Conditions for safe storage, including any incompatibilities 7.2.1 Advice on protection against fire and explosion In case of release of wood dust, generation of flammable or explosive mixtures of wood dust or wood chips with atmospheric oxygen is possible. Keep away from sources of ignition. Do not smoke. Take precautionary measures against static discharges. Annex I No 1 and article 11 of the German Ordinance on Hazardous Substances in accordance with EC-Directive 1999/92/EC has to be observed (if wood dust has been formed in such quantities that there is a risk of dust explosion). Application of the module "Fire & explosion" of the easy-to-use workplace control scheme for hazardous substances: Release group HIGH In designing the work process the model solutions of the Control Guidance Sheets  $pc-270^{1}$  and  $pc-280^{1}$  must be taken into consideration in case of possible release of only small amounts of product (g-band). In case of possible release of medium up to high amounts of product (kg- or t-band), the model solutions of the Control Guidance Sheet pc-370<sup>1</sup> must be taken into consideration. 7.2.2 Requirements for storage rooms and vessels No special measures necessary. 7.2.3 Advice on storage compatibility The information about joint storage given in Table 2 of TRGS 510<sup>1</sup> must be observed. 7.2.4 Further information on storage conditions Store in a dry place. 7.2.5 Storage class (for Germany only) LGK 11 (Combustible solids) in accordance with TRGS 5101. 7.3 Specific end use(s) The product is only intended for the uses mentioned under subsection 1.2. Used as a sarking. Observe technical data sheet.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

CAS No	Identification	Limit values	Remarks
not applicable wood dust <b>Only for Germany:</b>			
		2 mg/m <sup>3</sup> inhalable fraction	TRGS 553
		shift average exposure value*	
		К2	TRGS 905
			National limit values – eight hours
		2 mg/m <sup>3</sup> inhalable aerosol	Austria
		TRK value	
		(based on technical feasibility)	
		$3 \text{ mg/m}^3$	Belgium
		$2 \text{ mg/m}^3$	Denmark
		$2 \text{ mg/m}^3$	Finland
		1 mg/m <sup>3</sup> (new and renovated plants)	Finland
		$1 \text{ mg/m}^3$	France
		$5 \text{ mg/m}^3$	Hungary
		5 mg/m <sup>3</sup> inhalable fraction	Italy
		5 mg/m <sup>3</sup>	Latvia
		2 mg/m <sup>3</sup>	Sweden
			National limit values – short term
		4 mg/m <sup>3</sup>	Denmark
not applicable	softwood dust		National limit values – eight hours
		3 mg/m³	Belgium
		2 mg/m <sup>3</sup>	Denmark
		5 mg/m <sup>3</sup>	Hungary
		5 mg/m <sup>3</sup>	Ireland
		2 mg/m <sup>3</sup>	Sweden
		5 mg/m <sup>3</sup>	United Kingdom
			National limit values – short term
		4 mg/m <sup>3</sup>	Denmark

Remark:\* The shift average exposure value has not been taken as an indicative occupational exposure<br/>limit value of wood dust on the revised version of the German TRGS 900.<br/>In case of formation of dust during processing and treatment, Article 7 paragraph 9 of the<br/>German Ordinance on Hazardous Substances must be observed. This value is not in

accordance with the regulations and should only be considered as a tool for undertaking a risk assessment in accordance with Article 6 of the German Ordinance on Hazardous Substances. The methods for measuring chemical agents in workplace atmosphere must meet the general requirements of EN 481,

## EN 482 and EN 689.

## 8.2 Exposure controls

## 8.2.1 Appropriate engineering controls

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. See also subsection 7.1.

Any process which could generate dust must be provided with proper controls to ensure minimisation of dust nuisance (e.g. separation, enclosure, local exhaust ventilation, wetting, dust collectors).

Annex I No 1 and article 11 of the German Ordinance on Hazardous Substances in accordance with EC-Directive 1999/92/EC has to be observed (if wood dust has been formed in such quantities that there is a risk of dust explosion).

The effectiveness of suitable protective measures must be controlled.

Suitable assessment methods are described in the German TRGS 402<sup>1</sup>.

#### 8.2.2 Individual protection measures, such as personal protective equipment

Personal protective equipment needs to be selected specifically for the workplace, depending on concentrations and quantities of the hazardous substances handled. In the cases of special applications, it is recommended to check the chemical resistance with the manufacturer/supplier of the personal protective equipment.

#### 8.2.2.1 Eye/face protection

Tightly fitting safety glasses in accordance with EN 166 (in case of dust liberation).

#### 8.2.2.2 Skin protection

Hand protection:

Work gloves for protection against mechanical damage.

Body protection:

Closed work clothing.

	•	Page 5 of 9

Company/Undertaking:	GUTEX <sup>®</sup> Holzfaserplattenwerk H. Henselmann GmbH + Co KG	
	Gutenburg 5, D-79761 Waldshut-Tiengen	Revision date: 30.04.2019
	Telephone: +49-7741-6099-0	
Product number:	gute0024	

#### 8.2.2.3 Respiratory protection

Particle filter P2 or P3 in accordance with EN 143 (in dust-laden atmosphere).
Maximum use concentration for substances with occupational exposure limit values (OELV):
P2-filter up to max. 10 x OELV;
P3-filter up to max. 30 x OELV.
These values are only valid for Germany in accordance with the German DGUV Regel 112-190<sup>2</sup>. The limitations in wearing time according to the DGUV Regel 112-190<sup>2</sup> (rule of the German employers' liability insurance association) for the use of respirators must be observed.
8.2.2.4 Thermal hazards

#### Not relevant.

**8.2.3** *Environmental exposure controls* See Section 6.

## **SECTION 9: Physical and chemical properties**

9.1	Information on basic physical and chemical properties			
	Physical state:	solid		
	Colour:	brownish		
	Odour:	odourless		
		22 / 28 / 35 mm		
	Bulk density (kg/m <sup>3</sup> ):	200		
	Relative density:	not determined		
	Weight (kg/m <sup>2</sup> ):	4.4 / 5.6 / 7.0		
	Vapour diffusion factor:	3		
	Nominal thermal conductivity $\lambda_D$ (W/mK):	0.044		
	Thermal conductivity (applied) $\lambda$ (W/mK):	0.046		
	Thermal resistance (nominal) R <sub>D</sub> (m <sup>2</sup> K/W):	0.50 / 0.60 / 0.75		
	Thermal resistance R (m <sup>2</sup> K/W):	0.45 / 0.60 / 0.75		
	Air flow resistivity (kPa • s/m <sup>3</sup> ):	100		
	Specific heat capacity (J/kgK):	2100		
	Compressive stress/compression strength (kPa):	200		
9.2	Other information			
	None.			

#### **SECTION 10: Stability and reactivity**

10.1	Reactivity
	No data available for the product.
10.2	Chemical stability
	The product is stable under normal ambient and anticipated storage and handling conditions of temperature
	and pressure.
10.3	Possibility of hazardous reactions
	When used as intended, no hazardous reaction known.
10.4	Conditions to avoid
	No particular conditions known.
10.5	Incompatible materials
	No particular materials known.
10.6	Hazardous decomposition products
	No hazardous decomposition products known.
	For hazardous combustion products see subsection 5.2.

#### **SECTION 15: Regulatory information**

#### Safety, health and environmental regulations/legislation specific for the substance or mixture 15.1 15.1.1 Information regarding relevant Union safety, health and environmental provisions Regulation (EC) No 1907/2006: Annex V, paragraph 8 (wood) (exemptions from the obligation to register) In case of formation of wood dust in such quantities that there is a risk of dust explosion: Directive 94/9/EC and Directive 1999/92/EC have to be observed. 15.1.2 Information regarding national laws/national measures that may be relevant (for Germany only) Indications on restriction of occupation: Not relevant Major Accident Ordinance: Not relevant Fire and explosion hazards: Annex I No 1 and article 11 of the Ordinance on Hazardous Substances in accordance with Directive 1999/92/EC has to be observed (if wood dust has been formed in such quantities that there is a risk of dust explosion). Not relevant Regulation on clean air (TA Luft): Water hazard class: Non-hazardous to water (according to Annex 1 No 2.2 AwSV)<sup>3</sup> German Ordinance on Hazardous Substances (in accordance with EC-Directive 98/24/EC): Article 6 must be observed. In case of liberation of wood dust during processing and treatment: German Ordinance on Hazardous Substances (in accordance with EC-Directive 98/24/EC): Articles 7, 8, 9, 14, Annex I No 2 Regulation on Occupational Medical Prevention (ArbMedVV): Annex, Part 1 (1): Obligatory prophylaxis: The employer shall arrange occupational medical prophylaxis for workers conducting activities with exposure to inhalable dust, if the occupational exposure limit value is exceeded. Annex, Part 1 (2): Prophylaxis offer: For activities involving inhalable dust occupational medical prevention has to be offered. Technical Rules for Hazardous Substances1: TRGS 400, 402, 500, 510, 553, 555, 720, 721, 722, 800.905 Technical Rules for Industrial Safety1: TRBS 2152, 2152 Part 1, 2152 Part 2, 2152 Part 3, 2152 Part 4, 2153 Rules of the employers' liability insurance association<sup>2</sup>: DGUV Regel 113-001, 112-190, 112-192 Information of the employers' liability insurance association<sup>2</sup>: DGUV Information 250-403, 209-044, 209-045 Classification in accordance with the easy-to-use workplace control scheme for hazardous substances of the Federal Institute for Occupational Safety and Health, version 2.2, 2014<sup>4</sup>: inhalation: hazard group A (in case of release of wood dust, the protective measures in accordance with TRGS 5531 should be applied preferably) Classification in accordance with the module "Fire & explosion" of the easy-to-use workplace control scheme for hazardous substances of the Federal Institute for Occupational Safety and Health, version 20185: fire and explosion: hazard group pc-C 15.2 Chemical safety assessment

No chemical safety assessment has been carried out for a substance in the product.

16.5	Method used for the classification of the mixture				
	The product is an article. There is no requirement for the product to be specially labelled according to				
	Regulation (EC) No 1272/2008 or the corresponding national laws.				
16.6					

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
