

ADHERO Floor Drain

Floor drain as part of the SOLITEX ADHERO system

Technical data

Material	
Main component	PVC

Property	Regulation	Value
Colour		Grey
Thickness		3.5 mm
Height		320 mm
Outer diameter		Pipe: 63 mm
Outer diameter		Flange: 300 mm

Areas of application

Fitting for vertical drainage through the ceiling or roof structure during the construction phase. Installation with connection to a pipe or tube system for temporary drainage of water.

Supply form

Art. no.	for \varnothing pipe	Length	Width	Contents	Weight	GTIN
1AR03200	63 mm	300 mm	300 mm	1 piece	0.52 kg	4026639232007

Advantages

- ✓ Quick installation: simply drill through the building structure, no cutting necessary
- ✓ Dependable drainage: reliable run-off thanks to extra-flat flange, low fitting height
- ✓ Watertight sealing: transition between SOLITEX ADHERO and floor drain can be sealed with TESCON VANA adhesive tape with SOLID adhesive
- ✓ Time-saving and reliable drainage: connection to pipes and tubes for temporary drainage

The information provided here is based on practical experience and the current state of knowledge. We reserve the right to make changes to the recommended designs and processing or to make alterations due to technical developments and associated improvements in the quality of our products. We would be happy to inform you of the current technical state of the art at the time you use our products.

Further information about application and construction is given in the pro clima planning documentation and application recommendations. If you have any questions, please call the pro clima technical hotline Ireland and UK:
